Manager Clinical Trial Supply

Description

Granzer Pharmaceutical Services GmbH was founded in 2022 as a spin-off of Granzer Regulatory Consulting & Services GmbH. We are a Pharmaceutical Service Provider and Consultancy for the Development, Manufacturing and Quality Assurance of Medicinal Products. Our focus is the EU Import, Storage, Distribution and EU-Release of Investigational Medicinal Products, supporting the Clinical Trials of our Clients.

For our team in Munich, we are looking for a

Manager Clinical Trial Supply

Responsibilities

- Compile the release documentation for clients' clinical trials, including the PSF
- Perform clinical distribution activities
- Align with external CMOs and logistics providers
- Provide advice to our clients on their clinical trial supply chains
- Provide advice to our clients on regulatory requirements
- Support our clients in vendor selection and qualification activities
- Support the import processes for client IMP
- Support project management
- Support the maintenance of our GMP storage
- Support the Continuous Improvement of our Pharmaceutical Quality System
- Support inspections by authorities, client audits and self-inspections

Qualifications

- Academic degree as a pharmacist or in a Life Science related field, or degree as pharmaceutical-technical assistant (PTA)
- At least 5 years of experience in the pharmaceutical industry with relevant experience for the position
- Excellent knowledge of GxP regulations in Europe and US
- Willingness for occasional on-call duty
- Willingness to travel occasionally (e.g. meetings with clients or CDMO)
- Strong team work ethic and sound organizational skills for functioning with a high degree of independence on projects with minimal supervision
- Flexible working style and willingness for continuous education
- Knowledge of IT applications such as Microsoft Office and SAP
- Fluency in German and English

Job Benefits

- A dynamic and friendly atmosphere with flexible working hours
- Working with highly motivated professionals and with international clients
- Opportunities to develop and grow personally, to get exposure to a multitude of exciting projects and to contribute into development of a growing
